

STOREBRO 350 BISCAY

"The link to our heritage, and the beginning of our future"

STOREBRO 350 BISCAY

INTRODUCTION

The 350 Biscay is the first new boat model from Storebro Boats AB in a long time. It is a driving machine with all the comfort of a luxury family cruiser. Equipped with double or single Volvo Penta diesels with sterndrive, together with the latest manouvering systems, it will give you a precise and fully adaptable handling.

It is a boat designed for our Scandinavian conditions and will securely and quick take you to the destination of your choice in any weather conditions, aswell as a slow cruise in the winter archipelago.

We aim to provide a classical Storebro boat with the latest in modern equipment, all assembled with Storebros traditional attention to details and craftmanship.
